

FACE MASKS

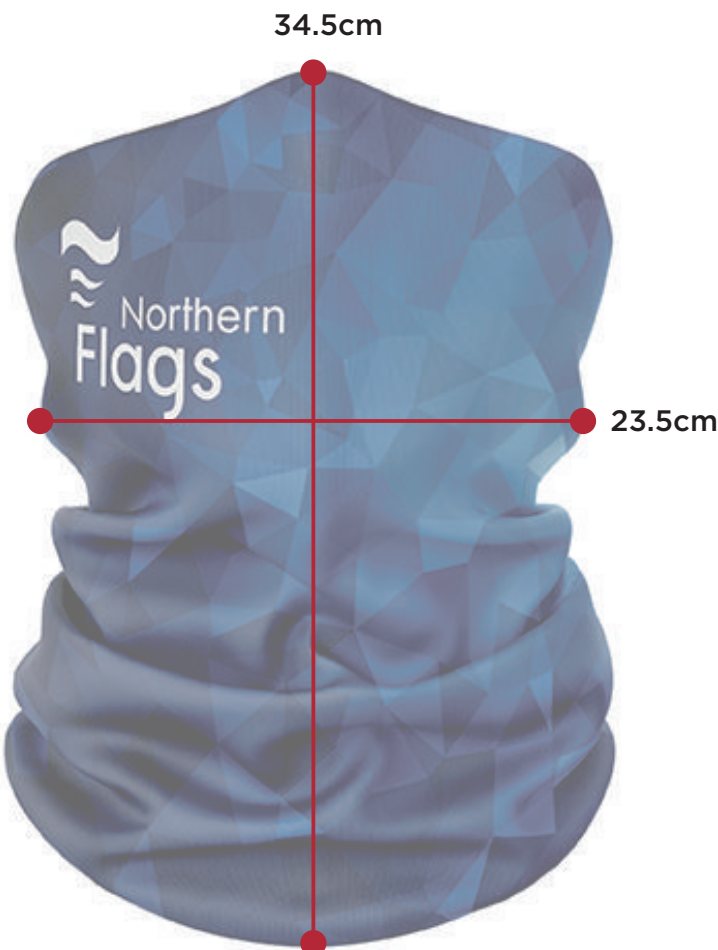

SNOOD - MEDIUM

SISTER COMPANY OF
FABEREXPOSIZEUK

Features & Benefits

Our Snoods are:

- OEKO-Tex certified for both inks and materials
- Custom printed and hand stitched at our Leeds factory
- Manufactured in a safe and socially distanced environment
- Available for direct delivery to you or your client
- Washable at 60 degrees and reusable
- Printed - Single layer of tension fabric

Please note Northern Flags snoods are deliberately designed to be thicker and not as stretchy as other similar products on the market. Because of our unique design, we are able to offer better filtration than other models and they stay in place on the face more effectively.

The primary purpose of our Snoods is to offer the wearer better protection and to limit the spread of moisture particles. Because we use OEKO-Tex certified inks in the printing process, the stretchiness is more limited than other snoods but they do not guarantee the protection from potentially harmful print substances.

Artworking Guidelines

- Template is at finished size
- Black area includes the bleed. Any background design should cover the black fully
- Magenta line is the cutter line
- Grey dashed line is the safe area. All key elements must be inside this line

LOGO AREA - 140mm x 100mm
