

# Exhibitions Social Distancing

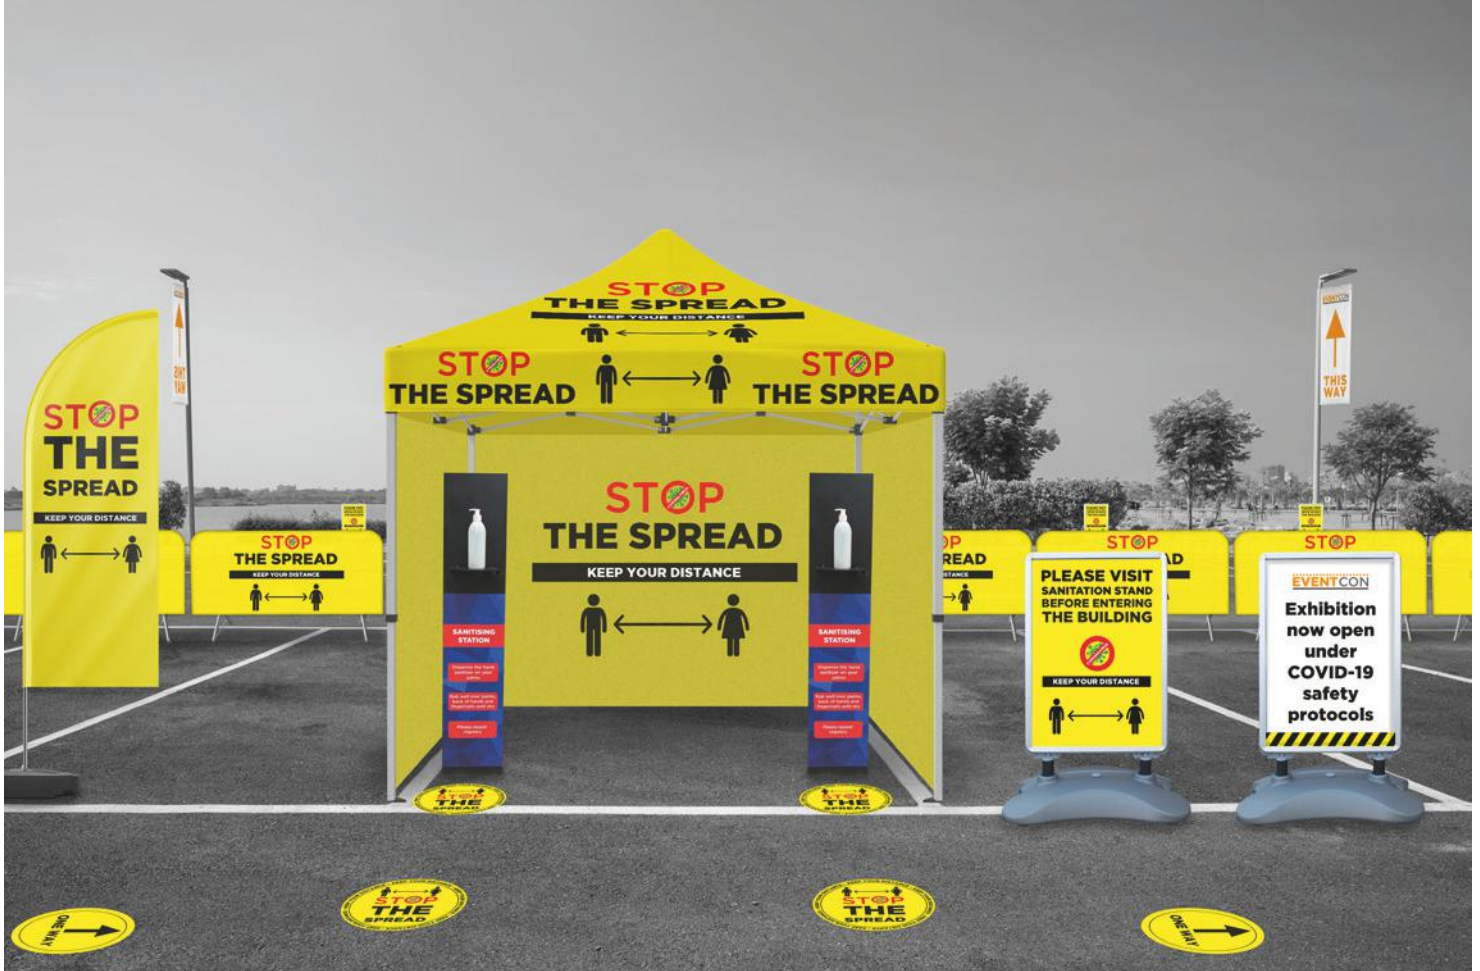

## COVID-19 Solutions

Preparing to Reopen edition

# CAR PARK

It is important that from the moment visitors arrive at the exhibition centre car park, they are aware of social distancing protocols. Make this clear with bright, informative signage which helps to keep visitors and staff safe, while also stopping the spread.

# OUTSIDE BUILDING

At the entrance to the building, clear guidance and queuing systems need to be put in place. This can be done with easy to install social distancing solutions, in addition to hand sanitiser stations.

# RECEPTION AREA

Pinch points are areas of the building in which there can be a build-up of people, coming in to close proximity with one another. You'll need to minimise the risk using social distancing signage to keep visitors and staff safe.

# EXHIBITION WALKWAYS

Due to the scale, exhibitions can be traditionally difficult for visitors to navigate around anyway, even without social distancing measures in place. Use clear, colourful signage to ensure directional precautions are followed.

# EXHIBITION STANDS

Stands are the areas where people are most likely to be closer to one another. Manage these areas of risk, with social distancing solutions, such as floor stickers, protective screens and banners to increase confidence and stop the spread.

# SELF-SERVICE CANTEEN

In high risk areas it may be necessary to institute directional signage, alongside clear messaging, in order to protect the health and safety of visitors and staff.

# SANITISING STATIONS

Our range of sanitiser stations are available branded or with just a spray finish. We can fit them with automatic dispensers, touch dispensers or with just a shelf for bottles of sanitiser and wipes.
